

Picatinny Arsenal

Environmental Aspects, Goals & Objectives

ASPECT #1: Open Burning/Open Detonation

GOAL: Stop the use of open burning through use of alternative resources such as incinerator and Donovan Chamber

OBJECTIVES: Reduce Environmental impacts or footprints of these activities, without compromising mission of the installation.

ASPECT #2: Notices of Violation (NOVs)

GOAL: Receive Zero Violations

OBJECTIVES: Minimization through preventative measures and an aggressive EMS program.

ASPECT #3: Environmental Building Conditions (Arsenal-at-Large)

GOAL: Capture all Problems as early as possible

OBJECTIVES: Proactive approach through Environmental reviews of Service Orders & IJOs.

ASPECT #4: Outdoor Testing

GOAL: Reduce overall Environmental foot print

OBJECTIVES: Re-evaluate test area impacts through more environmentally friendly area layouts and re-look at the loads on the environment.

ASPECT #5: Environmental Management Plans

GOAL: 100% of operations effecting the environment covered under an effective management plan. All personnel involved in these operations trained on the plan.

OBJECTIVES: Increase awareness through training, and amend plans to have employees take more ownership of their operation, and have them assess impacts to come up with a more environmentally effective way of doing business.
